# SMART CASH SOLUTIONS for every business

## Value for your customers and you

We offer a range of simple and cost-effective ATM and cash handling solutions - from recycling Smart ATMs, to self-cashed or CIT-cashed ATMs, and Smart Safes.

### Benefit from an in-store ATM

**Less cash on-site** as deposited cash can be recycled and withdrawn by customers

**Save on cash deposit fees,** safe rental and CIT costs

**Earn rebates** on successful cardholder withdrawals

**Daily settlement** on all cash drops regardless of CIT collection or if cash is dispensed

Draw in more customers and **increase in-store spending**

### myATM portal

- View daily and monthly transactions and settlements
- Update your information and log a ticket
- Access all billing information

### Experience ultimate modernity and convenience

An in-store ATM attracts more customers, and increases their in-store spend. Cash Express ATMs accept all local and international cards including SASSA cards. International travellers can be debited in their home currency. Our ATMs offer cardless withdrawals from mobile and crypto wallets or any other store of value.

Your customers can use their crypto wallets to withdraw cash at Cash Express ATMs, using our groundbreaking mobile application, CryptoExpress.

After just 3 months as an ATM Solutions client, you can qualify for up to R1 million in business funding or an overdraft of up to R5 million.

Capital Express offers hassle-free, unrestricted business funding that arrives within 24 hours of you accepting your offer.

### Find the right cash handling solution for your business

From a regular ATM that can be self-cashed to a cash recycler - a Smart ATM™ which is a drop safe and ATM in one.

Our wide range of product and installation types is guaranteed to have a solution to fit your business's needs.

# The pioneering Smart ATM™

The cash recycling Smart ATM™ is a drop safe and ATM all in one. Cash is deposited, then sorted & verified, before it drops into the safe and is recycled for your customers to withdraw.

## Illuminated Shroud

The Illuminated Shroud is a free-standing in-store ATM. It allows for cash drops in the safety of a store. It is a quick and easy installation, and is bolted into the floor.

## Standard Slimline Wrap

The Standard Slimline Wrap is a small footprint, free-standing in-store ATM. It allows for cash drops in the safety of a store. The installation is quick and easy, and it is bolted to the floor.

- 

**Fewer CIT visits**  
decrease your on-site risk
- 

**Risk passes to ATM Solutions**  
once cash drops into the safe
- 

**Daily notification** of cash levels for management
- 

**Save time** with automated sorting and validation using unique user codes
- 

Multiple stores can drop cash and we can settle into **multiple accounts**

## Rear-Loading Rotational

Our one-of-a-kind Rear-Loading Rotational Wing allows the back of the ATM to be inside a cashing office. The ATM easily rotates so that cash drops and maintenance can be done out of view. The Smart ATM is bolted to the frame and rotating steel plate.

# Self-cashed ATMs

Save on cash deposit fees and time while reducing the amount of cash in your tills. Store excess cash safely in a self-cashed ATM. Cash dispensed will be transferred into your bank account daily.

Choose from a large variety of compact and free-standing installation options to best suit your specific retail space and business needs.

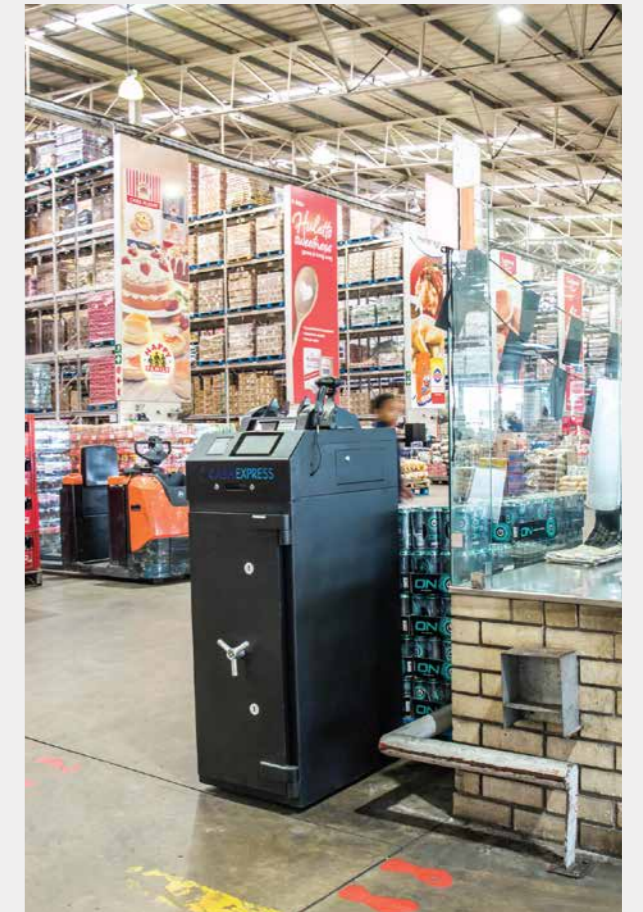

# CIT-cashed ATMs

Standard ATMs can be CIT-cashed on request.

# Smart Safes

Our Smart Safes automate daily cash management, reduce shrinkage and simplify back office administration.

We offer multiple installation options to suit your cash drop needs.
